Alley Pond Narrative

Revised Due Date: **Tuesday, November 17, 2015**

Many of you have been asking for more details about your narrative assignment. I hope the information below will help you do your best work.

- Introduction with VOICE
- Monday at the pond should include details and impressions of the time at the pond. This should be at least a paragraph.
- Monday afternoon in the science room should tell what we did in the science room your discoveries and impressions. This should also be a paragraph.
- Tuesday morning with Peter should discuss Peter's corrections of our misconceptions and other information he gave us.
- Details on organisms found: each organism found should be discussed, the information about it from the resources in my room, Peter or any other research you might have done on your own (research on your own is not required).
- The labeled detailed picture of each organism found (hand drawn, not downloaded from books or internet).
- A paragraph that includes a discussion of the health of the pond (polluted or not & why).
- A closing using VOICE.
- Please cite your sources at the end. A simple list of the names of the books or other resources that were used. "In my notebook" is not acceptable!

Other Information:

- Turn in your narrative with your checklist
- **Do NOT** staple pages together!
- Use only **ONE side** of the page.
- **Name, class and Page number on every page.**

Below is the original checklist in case you misplaced the first one.

Alley Pond's Narrative Checklist **Do it all. Get a four!**

Our trip was on Monday, October 19, 2015.

Peter Schmidt, (Queens College GLOBE scientist) joined us there.

On Tuesday, October 20, 2015, Peter Schmidt came to our school.
