

IXL – IMPORTANT NEWS

April 15, 2020

Greetings Everyone!

I am writing to let you all know that our IXL math subscription has been upgraded. Thanks to the generosity of IXL, our students will now have access to not only Math but also Language Arts, Pre-K to 12 and Science and Social Studies Grades 2-8.

IXL is an extremely valuable learning resource for your children and I strongly encourage you to explore the worthwhile features of IXL.

In addition to practicing skills, IXL Language Arts offers a “diagnostic”, found on the IXL dashboard. (We did the diagnostic for Math for all our K-5 students in December.) This diagnostic will give you, your child and your child’s teacher their overall language arts level and reading level and also breaks down your child’s level in four areas; Reading Strategies, Vocabulary, Writing Strategies and Grammar.

Once IXL narrows down your child’s level it will automatically provide personalized learning recommendations. Practicing regularly on IXL will almost surely help your child grow in their learning.

I’m happy to say that all of our students, Pre-K to 5, have access to this integrated learning platform. Please take advantage of this tool to support your child’s personalized learning.

Should you have any questions, please email me at mbutler3@schools.nyc.gov.

Happy learning!

Mary Butler
