Where Sharing is Caring

Karen Scott-Piazza, Principal

October 28, 2021

Dear Parents and Guardians,

Today you will be receiving the family reports detailing your child's assessment results from our beginning of year assessments. Please celebrate your child's strengths and progress and collaborate with them on planning how they will reach their goals. Review the reports carefully and bring any questions to next week's parent teacher conferences. Your child's teacher will provide additional insight into your child's progress.

Expect to see the following family reports:

- K-2 *Acadience* Reading and *i-Ready* Math
- 3-5 *i-Ready* and *MAP Growth* Reading/Math

The *Acadience* Reading Assessment was administered individually by your child's classroom teacher. Both *i-Ready* and *MAP Growth* are computer adaptive group administered assessments.

In addition to recommendations from your child's teacher, please note that the following digital platforms are available for all of our students to help strengthen their skills:

- ELA skills – Use IXL and RAZ-Kids
- Math skills – Use IXL

The goal of the assessments is to inform student's academic achievement. Please be aware that results may differ from one assessment to the next. Teachers use information from multiple sources including these reports to determine your child's current academic level. Placement levels are used along with teacher observations to guide instruction in the classroom.

Sincerely,

Mary Butler, Data Specialist

Karen Scott-Piazza, Principal
